

GATEWAY Program

The Bio-Builder & Hook Tool" Purpose

A. Worksheet: "The Bio-Builder & Hook Tool" Purpose: A fill-in-the-blanks exercise to transform a generic bio into a "Solution-First" storefront. **Content:** A table where you rewrite your bio using the **Bio Formula**:

- [Who I Help]

e.g. [Who I Help]: I help Nigerian Health-Tech startups reach more patients through clear communication.

I help SaaS founders, FinTech startups, and growing digital businesses convert more users and reduce onboarding drop-offs.

- [How I Help]

e.g. [How I Help]: I simplify complex medical jargon into engaging, trust-building blog posts and newsletters.

I design intuitive, accessible mobile apps and web dashboards in Figma using scalable design systems and conversion-focused UX wireframes.

- [Call to Action]

e.g. [Call to Action]: Click the "Message" button to see my latest Health-Tech writing samples!

Send me a message or click "Invite" to view my clickable Figma prototypes and discuss your product designs!

B. Further Reading Hub (PDF Links/Copy):

-

"GDPR: General Data Protection Regulation for Freelancers": A one-page "Trust Manual" explaining how to handle client data safely to meet global standards.

- **"The Inclusive Storefront Guide":** A simplified summary of WCAG 2.1 standards for adding Alt-Text and captions to digital profiles.
