

My Legal-Ready Business Kit

Component 1: Service Agreement

- **Scope of Services:** End-to-end UI/UX design for mobile and web applications, including user research, wireframing, high-fidelity Figma prototypes, user testing, and developer handoff documentation.
- **Payment Terms & Fees:** Total project cost split into milestone payments: 50% upfront deposit before kickoff, 30% upon approval of mid-fidelity wireframes, and 20% prior to final file handoff. Payments made via bank transfer within 7 days of invoice issue.
- **Delivery Timelines & Revisions:** Project duration is 6 weeks. Includes up to 2 major revision cycles per milestone; additional revisions or major scope changes will be billed at an hourly rate of ₦15,000/hour.
- **Dispute Resolution Clause:** Any dispute arising under this agreement will first be resolved through good-faith negotiation within 14 days. If unresolved, the dispute will proceed to mediation at the Lagos Multi-Door Courthouse (LMDC).

Component 2: Intellectual Property (IP) Protection Plan

- **Creative Output Ownership:** All preliminary sketches, unused concepts, and working Figma files remain the exclusive property of the designer. Full ownership and copyright of the final approved design assets transfer to the client upon receipt of 100% full payment.
- **Licensing Terms:** The designer retains a non-exclusive, worldwide license to display completed designs in professional portfolios, case studies, and marketing materials.
- **Non-Disclosure Agreement (NDA):** Both parties agree that all proprietary business data, user information, and trade secrets shared during the project remain strictly confidential and will not be disclosed to third parties.

Component 3: Risk Management Plan

Risk 1 — Scope Creep:

Mitigation: Require a signed project scope document before starting work; charge extra for out-of-scope feature requests.

Risk 2 — Non-Payment / Delayed Payment:

Mitigation: Enforce a strict 50% upfront deposit before commencing design work and pause final asset transfers until final payment clears.

Risk 3 — Data Breach / Asset Loss:

Mitigation: Store project files on cloud backup platforms with two-factor authentication (2FA) and comply with NDPR guidelines for user research data.

Insurance & Data Practices: Maintain secure, encrypted cloud backups of all design files and user research data; explore professional indemnity coverage as project volume scales.

Component 4: Business Formalisation Roadmap

- **Business Structure & Name:** Sole Proprietorship registered under Corporate Affairs Commission (CAC) Business Name.
- **Registration Decision & Justification:** Register now. Formalizing with CAC establishes credibility, enables opening a dedicated corporate bank account, and meets corporate compliance requirements for long-term retainers.

CAC Registration Steps:

- Conduct a Business Name Availability Search on the CAC portal.
- Complete online application forms and submit valid government ID, passport photograph, and signature.
- Pay CAC filing fees and retrieve the digital Certificate of Registration and Tax Identification Number (TIN).

Required Permits & Banking Setup: Obtain a TIN for tax compliance and set up a business account with a Nigerian commercial bank.
